

# CYBER (US)

More businesses are taking measures to protect themselves in response to the rising frequency of data breaches and cyberattacks. Yet losses escalate every year as cyberthreats change, putting companies of every size and industry at risk. Increasing data-privacy laws mean organizations also face potential exposure to fines if they fail to comply with emerging regulations.

At Mosaic, we view cyber risk as a true business concern—and we work closely with companies to help protect against unpredictable incidents. Using proprietary technology to standardize processes allows our team to take a focused, hands-on approach to client needs. Through our partnerships with leading legal, forensics, and other strategic service providers, Mosaic provides a comprehensive solution to address cyber incidents, resolve legal and regulatory obligations, and minimize reputational impact.
